

# CREATE YOUR OWN LU-LA SPACE SLIME!

**MAKING SLIME CAN BE TRICKY (AND MESSY!) - SO MAKE SURE YOU HAVE A GROWN UP TO HELP YOU!**

Watch a how-to video  
on Shaun's YouTube channel!  
[www.youtube.com/shaunthesheep](http://www.youtube.com/shaunthesheep)

## YOU WILL NEED

- CLEAR PVA GLUE - APPROX. 200ML
- SALINE SOLUTION - APPROX. 50ML
- BAKING SODA - 1 TSP
- PINK AND BLUE GEL FOOD COLOURING
- BIODEGRADABLE GLITTER (1 PACK)
- MIXING BOWLS
- SPATULAS
- CLEAN JAM JAR

## INSTRUCTIONS

- 1:** Squeeze approximately 100ml of PVA into a bowl (the more you use, the more slime you will make!)
- 2:** Put a few drops of blue food colouring into the PVA and mix until you have your desired colour.
- 3:** Using a jug or cup, combine 25ml saline solution and 1/2 tsp baking soda.
- 4:** Slowly add the saline mix a splash at a time to the PVA, mixing after each splash.
- 5:** You will see the texture of the PVA become gooier - keep adding the solution until the mixture can be handled without it sticking too much.
- 6:** NOW THE MESSY BIT! Use your hands to knead the mixture until it makes slime. It will be very sticky at first but you can add more solution to get the finish you want.
- 7:** When you are happy with your slimey mix, add some glitter and fold it in.
- 8:** Repeat steps 1-7 to make the same amount of pink slime.
- 9:** Roughly mix the 2 coloured slimes together to make a mix of pink and blue to look like Lu-La!

## SLIME ! SAFETY

- Be very cautious with substituting any ingredients - the ones we've recommended are non-toxic, so make sure you check the labels before using others.
- Slime isn't meant to be stored for long periods of time, only keep for a few days while you play with it. If it gets dirty, or multiple people are playing with it, dispose of it quickly.
- Making slime is fun, but be conscious of the environment: only make small amounts, use biodegradable glitter and dispose of it carefully.
- Although our slime recipe uses non-toxic ingredients (and looks quite tasty!) please make sure you don't eat it!
- After you have finished playing with your slime remember to wash your hands.

# CREATE YOUR OWN LU-LA SPACE SLIME!

## MAKE A LU-LA JAR TO HOLD YOUR SLIME

**10:** Cut out the pieces on this worksheet and stick them to the outside of a clean jar.

**11:** Add your slime to the jar to keep it safe and clean when you're not playing with it!
